

DuraPHOS 0-46-0

TRIPLE SUPER PHOSPHATE (TSP)

FALL PHOS. NO [N] LOSS.

DuraPHOS™ Triple Super Phosphate (TSP) is a nitrogen-free fertilizer platform that is the foundation for a proactive soil nutrition strategy. It is the most economical, environmentally conscious and agronomically appropriate choice for fall application, with no risk of nitrogen runoff, leaching, volatilization or denitrification. DuraPHOS also enhances the ability for precision phosphate placement. As part of a productive growing season, DuraPHOS ensures nutrients remain available when springtime planting begins.

HOW TO USE

For use directly in fields as soil fertilization or as raw material for blends.

PHYSICAL PROPERTIES

Color: Variable shades of gray

CHEMICAL PROPERTIES

Total Phosphate (P_2O_5): 46%

Water Solubility: > 90%

Total Calcium (Ca): 15%

Loose Density: 1.06

Packed Density: 1.17

pH: 3

USES

Corn

Soybeans

Wheat

Canola

Cotton

Potatoes

Rice

Hay/Pasture

Vegetables

Orchard

PRODUCT BENEFITS

High concentration of P for optimal crop growth

Enables VR application

No N loss

Straight phosphate fertilizer suitable for precision nutrient management
