

MONO-AMMONIUM PHOSPHATE

MAP 11-52-00 | Binary fertilizer, complex granule

Use

MAP is a concentrated phosphate fertilizer. It can be used directly for soil fertilization or as raw material for blends.

Packaging

In Bulk

Characteristics

Physical characteristics

pH: 5

Loose density: 0.92

Packed Density: 1.02

Physical State: Granule

Appearance: Light brown / black

Chemical characteristics

Nitrogen: 11 % (N)

Phosphorus: 52 % (P₂O₅)

OCP

North
America
